to attend and profit by them.

They cover a wide range, from economics to art, and occasionally abstract philosophic principles are treated in # popular way. As soon as the course at the Catholic University is announced The Times will publish in this column a full list of the subjects and the dates on which they will be discussed at the various centers of learning. They are intended as entertainments, but also to popularize knowledge among those of literary tastes whose opportunities did not embrace a college course. They are one of the pleasant and unique features of Washington, and as a whole give a better lyceum training than whole give a better lyceum training than can be obtained elsewhere.

"In Old Kentucky," which will be see at the Academy next week, will be re-called as one of the most picturesque and creditable American plays produced in many years. It won recognition in New York, and it has been enthusiastically received elsewhere. It abounds in sensa-tional scenes of real dramatic power, and presents a series of attractive pictures of Kentucky life more naturally, perhaps, than any other drama of its class. It has been described as more interesting and absorbing than "Alabama," and mor indigenous of the soil than "In Missouri. It has all the brisk action of melodrama combined with the breeziness and humo of comedy. It portrays in a piensant way some of the phases of life in an interesting portion of our country.

"The Founding," which had a long run in New York instreason at Hoyy's Theater, will be presented at the New National Theater Monday night under the direction
